RUSTIC ELEGANCE IN ROCHESTER HILLS

1st

GORMAN'S INTERIOR DESIGN

The homeowner wanted a round dining room with a round table (this one features a 60-inch maple top), so that each guest would feel as though they are the center of attention. The table (with a black-rubbed finish) and silk-fabric chairs, are from Hickory White. No rug was used, because the client wanted a very clean look — the flooring features 5-inch, hand-scraped birch planks. The eight-light George Kovacs pendant fixture crowns the room beautifully, while simple wall sconces finish the simplicity of this design, featured on the cover of the magazine.

DESIGNER'S ACHIEVEMENT

A wall of custom-made cabinetry in a pretty, sage finish was installed to provide much-needed additional storage, as well as to anchor a new pass-through to the kitchen.
